

Building Materials

Construction

Get an insight on latest innovative building materials; developed to meet the demands of rapidly developing cities around the world. Among these supplies are anti-earthquake building materials.

Providing building and interior materials from Türkiye & the world.

Building materials

that suit the specific needs of any project

Bricks

Glass

Steel Reinforcement Bars

Tiles

Steel Coils

Sanitaryware

Cementing Materials

Metals & Steel

Wood Planks

Asphalt

Stones

Paving Slabs

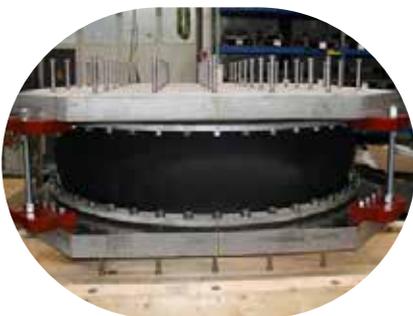

Latest technologies

Anti-earthquake materials

Türkiye is at the forefront of seismic safety; producing materials that withstand powerful seismic activity.

- Seismic Isolators absorb much of an earthquake's impact by reducing swaying and shaking during an earthquake. They are made of rubber, steel, or a combination of the two; and are designed to act as a cushion between the structure and the ground.
- The isolators are also beneficial in regions that are prone to high winds, as they can help reduce the amount of damage caused by high winds.
- Seismic Isolators also absorb and reduce noise and vibration caused by industrial machinery and equipment; making them a great choice for many countries around the world.

Seismic Isolators designed to protect buildings by reducing and absorbing the amount of seismic waves transmitted from an earthquake; thus dissipating this energy and thereby reducing the risk of structural damage or collapse.

GTA supports the supply of Seismic Isolators that have proven results in their successful implementation.

Quality materials

ensuring projects are completed correctly and safely

Providing guidance on the most suitable products for your needs, the best prices for your orders, and the most efficient delivery methods.

Residential construction

- › The construction of homes, apartments, condominiums, townhomes, and other housing developments.

Commercial construction

- › The construction of office buildings, shopping centers, warehouses, and other non-residential structures.

Industrial construction

- › The construction of factories, power plants, refineries, and other industrial facilities.

Institutional construction

- › the construction of schools, hospitals, government buildings, and other facilities.

Building machinery

Excavators

Backhoes

Bulldozers

Cranes

Concrete Mixers

Compaction Machinery

Trenchers

Aerial Work Platforms

Dump Trucks

Machinery used in construction and building projects range from small, hand-held tools to large, complex machinery and equipment.

All machinery are robust, reliable and durable.

Access control Security systems

- Automatic Fire Extinguisher
- CCTV Surveillance Systems
- Intrusion Detection Systems
- High voltage Cables
- Intercom Systems
- Vehicle Tracking Systems
- RFID Systems
- Lighting Solutions
- Fire Detection Systems
- Access Control Systems
- Automated Gate Systems
- Generators
- Video Door Phones
- Automation & Control Systems
- Power Distribution Equipment

Folding roof systems

Extend your outdoor living space

**Louvered bioclimatic
roof systems**

**Retractable sliding
glass roofs**

Pavilions

Canopies

Fabric Structures

Folding roof systems made from high quality durable and weather resistant materials. Ideal for outdoor applications. They are also relatively light; easily installed and removed. Available custom designs tailored to specific needs.

GTA has exported Seismic Isolators to countries around the world, and have proven results in their successful implementation.

Interior materials

Reflecting a rich culture and history

From vibrant colors and textures to intricate patterns and motifs, Turkish interior materials are some of the most beautiful and unique in the world.

Marble

Granite

Travertine

Limestone

Onyx

Ceramic Tiles

Porcelain Tiles

Terracotta Tiles

Wood Flooring

Natural Stones

Wooden Panels

Wall Coverings

Carpet Tiles

Vinyl Flooring

Laminate Flooring

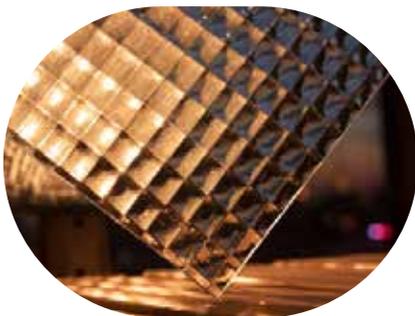

Cork Flooring

Stucco Finishes

Acoustic Panels

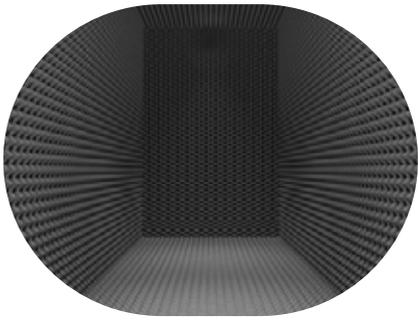

Glass Products

Resin Panels

Metal Wall Cladding

Soundproofing Materials

Artificial Turf

Artificial Plants

Artificial Lighting

Engineered Quartz

Turkish Carpets

Upholstery Fabrics

Bedding

Drapery

Lighting

Furniture

Decorative Objects

Doors, gates & accessories

Modern Door Systems

Iron Gates

-
1. PVC Doors
 2. Wooden Doors
 3. Steel Doors
 4. Aluminum Doors
 5. Glass Doors
 6. Fireproof Doors
 7. Sliding Doors
 8. Folding Doors
 9. Automatic Doors
 10. Double Glazed Doors
